

## INVITATION

# ENSURING EUROPE'S SECURITY: GERMANY, UKRAINE, AND THE EVOLVING RUSSIAN THREAT

Dear colleagues and friends,

We warmly invite you to our panel discussion **Ensuring Europe's security: Germany, Ukraine, and the evolving Russian threat**. The event takes place on **11 March 2025** within the frameworks of the Café Kyiv at **Kino Colosseum** in **Berlin**.

In the international media, there is currently much discussion about so-called peace negotiations. However, Russia's aggression continues unabated and its relentless attacks on Ukrainian civilian infrastructure persist. Based on the latest analysis and trends of recent months, we will discuss the dangers of a lack of European military support for Ukraine. What are the implications for European security and Germany's own ability to defend itself? What contribution can and must Germany make to Europe's security?

The panel discussion is organized in cooperation with the Sahaidachnyi Security Center.
